

Dr. Jitesh Shetty

## THERE ARE WISHES, THERE ARE DREAMS...AND THEN THERE IS BOTOX®

Hi! I am Dr. Jitesh Shetty, a practicing Dermatologist and Cosmetologist in Mumbai. My services are also available in Bangalore, Udupi and Mangalore. In my practice in all these cities, I have realized that there is one common passion: to look ever youthful and to achieve this; there is no treatment like BOTOX®

In my clinic 'Tvam', I use BOTOX® for a wide variety of purposes to eliminate lines around the eyes (crow's feet), frown lines, and worry lines in the forehead area and also fine lines under the eyes. BOTOX® can also be used, with excellent results, for the following:

- To make a square looking jaw more oval and feminine (face contouring)
- To mildly tighten the jaw line (Nefertiti lift)
- To eliminate 'chicken legs' neck in aging individuals

- To arch the eyebrows or flare them
- To lessen the 'flare around the nostrils' (of the nose)
- To give a glowing complexion and reduce skin pores (Mesobotox), often termed 'BOTOX® Facial'
- To stop a condition called 'Hyperhidrosis' or excessive sweating, which can occur in the armpits (axilla), palms and soles
- To visibly reduce pigmentation in under eye dark circles

BOTOX® takes just 48 - 72 hours to show effects in most individuals. The full effects last for 6 months. In some of the conditions the effect of BOTOX® may even last for a year.

BOTOX® is the brand of Allergan which has an excellent safety profile. It is of utmost importance to get your BOTOX® treatment

from a trained, qualified and experienced doctor, as side effects can occur if BOTOX® is not injected properly.

I am highly privileged to be one among the select BOTOX® administrators in India. Every session at my clinic 'Tvam' is an experience in restoring and creating beauty

Dr. Jitesh Shetty has been venerated for his professional excellence with "The Priyadarshini Indira Gandhi Award" 2006 and "The Rajiv Gandhi Excellence Award" 2007 and is one of the recipients of the "Man of the Year 2008" award by the American Biographical Institute, USA.
